WEISER, IDAHO

▶ NACHURS 3-18-18

▶ CHECK

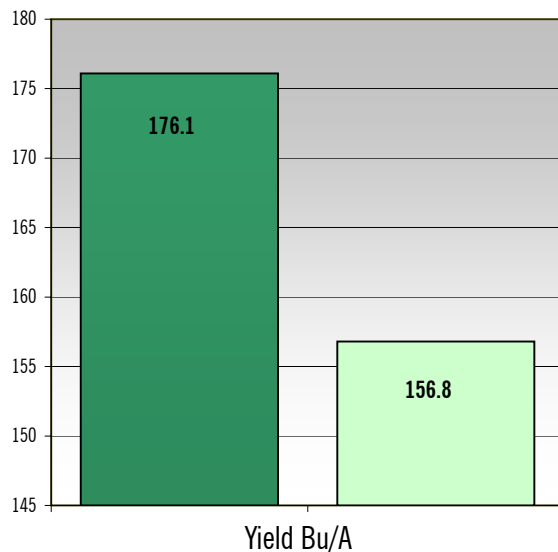

NACHURS ADVANTAGE:

+ 10.64 Bu/A

Distributor: Agri Air Services - Cambridge, ID
Grower: Lee Adler - Weiser, ID
Crop: Stephens Wheat
Application: March, 3 Gals NACHURS 3-18-18 at 6" growth stage
Plot Info: 3 acres, 4 reps
Treatments: 1) 3 Gals/A NACHURS 3-18-18 foliar fertilizer
 2) Check

Observation: The NACHURS foliar treated plots were more uniform during the season and proved more profitable at harvest time. All NACHURS foliar plots improved yield and uniformity during the growing season over the check.

OTHELLO, WA

▶ NACHURS 3-18-18

▶ CHECK

NACHURS ADVANTAGE:

+ 19.3 Bu/A

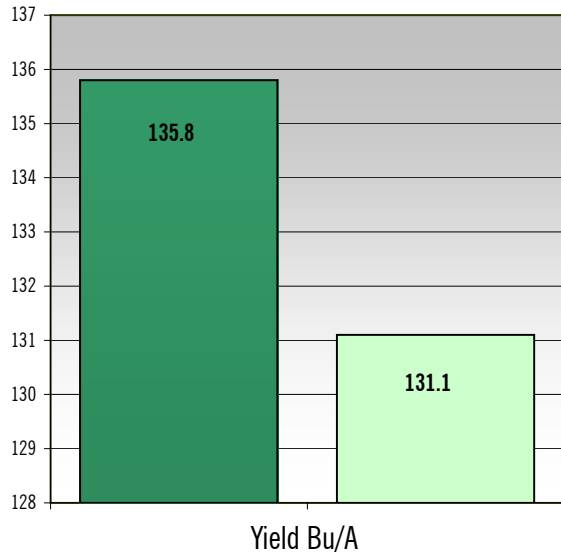

Distributor: Briggs Farm Service - Othello, WA
Crop: Winter Wheat (Furrow Irrigated)
Application: 2.85 gals NACHURS 3-18-18/A foliar applied, March 15
Plot Info: 10' x 50' Reps: 5
Treatments: 2.85 gals NACHURS 3-18-18
Observation: This was a very good field of wheat. The extra nutrients

applied of NACHURS 3-18-18 made a 19.3 bu/A difference, which proves very profitable to a wheat grower.

3-18-18

PASCO, WASHINGTON

▶ NACHURS 3-18-18

▶ CHECK

NACHURS ADVANTAGE:

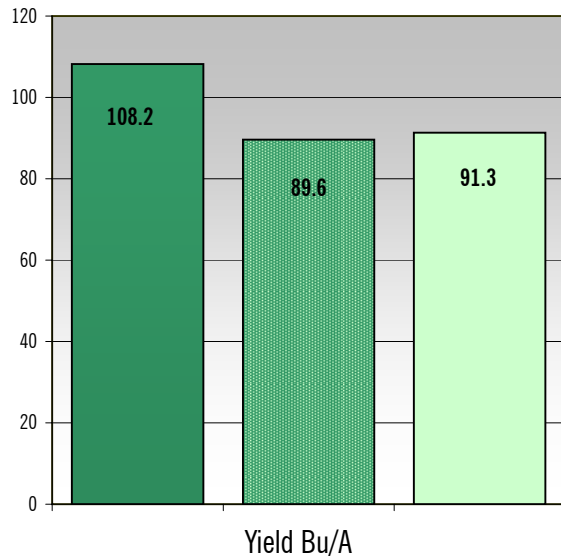

+4.5 Bu/A

applied of NACHURS 3-18-18 made a +4.5 bu/A difference, which proves very profitable to a wheat grower.

Distributor: C & L Crop Care - Pasco, WA
Crop: Winter Wheat (Irrigated Center Pivot)
Rate: 2.75 gals NACHURS 3-18-18/A foliar applied
Plot Info: 10' x 50' Repts: 6
Treatments: 2.75 gals NACHURS 3-18-18 at 3-5 tiller growth stage
Check, no foliar
Observation: This was a very good field of wheat. The extra nutrients

3-18-18

WALLA WALLA, WASHINGTON

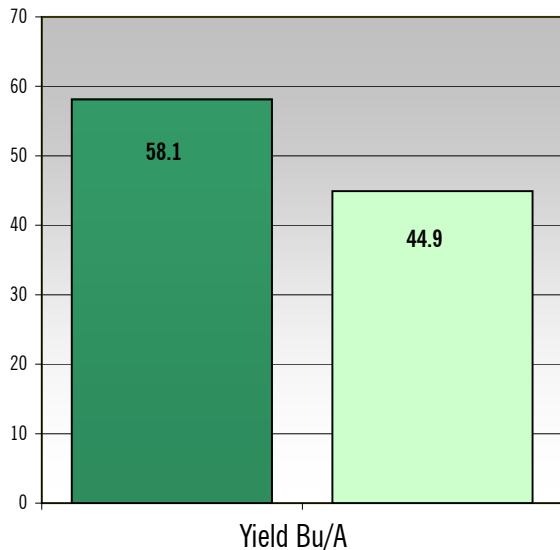

- ▶ NACHURS 9-18-9
- ▶ NACHURS 16-4-4-8
- ▶ CHECK

NACHURS ADVANTAGE:

9-18-9: +16.9 Bu/A / 16-4-4-8: -1.7 Bu/A

Distributor: Char-el Enterprises - Walla Walla, WA
Crop: Stephens Wheat (Fall Planted)
Application: On the seed
Plant Date: October
Plot Info: Drill was equipped with a Blumhardt manifold. Two NACHURS analyses were tested at the 3-gallon rate. Plots were drilled in strips and replicated high in the Blue Mountains.

Treatments: 3 gals NACHURS 9-18-9 and 3 gals NACHURS 16-4-4-8
Observation: The NACHURS 9-18-9 starter plot showed a significant yield increase. The 16-4-4-8 starter yield was 1.7 bu/A less than the check. A visual difference was noted immediately after germination on both starter plots. The importance of P & K might be shown on cold soil in this test.

LEWISTON, IDAHO

- ▶ NACHURS 9-18-9
- ▶ CHECK

NACHURS ADVANTAGE:

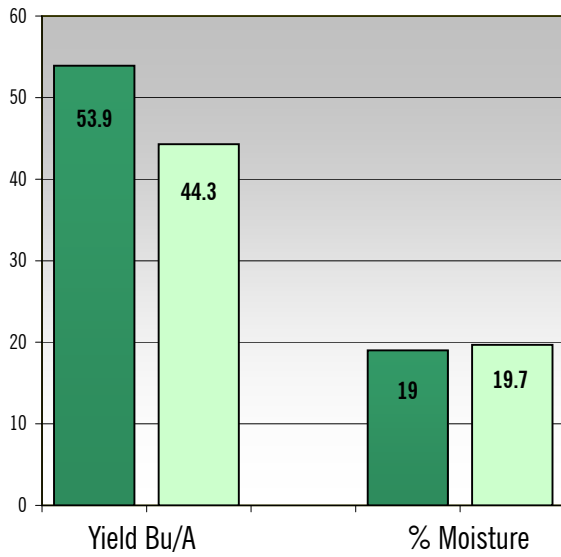

+13.2 Bu/A

Distributor: CCK Fertilizers - Lewiston, ID
Crop: Spring Wheat
Application: On the seed
Plot Info: The field was stripped as it was planted. 4 reps were harvested
Treatments: 3 gals NACHURS 9-18-9 on the seed
Observation: The NACHURS 9-18-9 starter plot showed a significant yield increase.

9-18-9

NORTH ROSE, NEW YORK

▶ NACHURS 6-24-6 @ 5 Gal/A

▶ CHECK

NACHURS ADVANTAGE:

+ 16.9 Bu/A, lower moisture content of -.7%

Conducted by ACDS Research, Inc.
